Syngenta Leadership Training Program ~WNAAA Application

The NAAA/Syngenta Leadership Training Program's goal is to develop strong, knowledgeable leadership in the agricultural aviation industry. The year-long program trains participants to communicate clearly to the public, media and government the important roles aerial application plays in the production of our country's agricultural products. The program has been offered by NAAA and Syngenta Crop Protection, Inc. (formerly Zeneca Agricultural Products) since 1995.

Participants meet in conjunction with the Fall NAAA Board meeting and the Spring NAAA Board meeting. Training focuses strongly on public speaking and the ability to deal successfully with the public and media concerning industry issues.

Applicants must be the spouse of an NAAA member or a dues-paying WNAAA member. (WNAAA dues are $200.)

Syngenta Leadership Training Program WNAAA Application

Name: _____

Business Name: _____
