

Operation S.A.F.E. Analyst Technician Renewal

Each Operation S.A.F.E. Analyst Technician shall meet the following conditions in order to apply for a three-year renewal of the certification:

A. Once every three years a certified analyst technician must certify attendance at a minimum of three meetings of any combination of the following:

1. Attend an NAAA Convention
2. Attend a PAASS educational program
3. Attend a State/Regional AAA Convention
4. Attend a national ASAE/ASTM Pesticide Applicator Meeting.

B. At least twice in the three-year period an analyst technician must assist in an Operation S.A.F.E. Fly-In in which at least five (5) aircraft are calibrated.

C. The analyst shall provide written documentation to NAAREF of completion of items (A) and (B) prior to expiration of certification/recertification.

D. Attendance at a S.A.F.E. Analyst training school may be substituted for the requirements of Sections A & B above.

E. Each analyst will maintain currency through literature and professional interaction.
