

Ag Aviation Industry Facts

*Learn About the Important Work
of Aerial Application.*

Did you know?

- Aerial applicators annually treat 127,000,000 acres of cropland; 7,900,000 acres of pasture and rangeland; 5,100,000 acres of forest land and 4,800,000 acres for public health.
- The U.S. would need to convert 27,400,000 acres of wildlife habitat, wetlands, etc. to cropland to make up for crop yields lost if aerial application was not available – An area roughly the size of Tennessee.
